## REPORT

### FOR THE YEAR 1937.

---

In presenting their report for the year 1937 the Committee wish to point out that the amount of work carried out constitutes a record for the Hospital. At the same time there has been no lowering of the standard of efficiency, although the strain on the Medical and Nursing Staffs has been very great.

The number of in-patients treated to a conclusion in 1937 was 2,017, as against 1,905 in 1936. The average daily number of beds occupied was 111.54, as against 108.51 in 1936, the average stay of patients being 20.18 days, as against 20.85 in 1936.

The percentage of deaths was 7.68, as against 6.35 in 1936. This increase can be attributed to the fact that a large number of patients were admitted in a moribund condition.

The total number of patients admitted in 1937 was 2,025, as against 1,910 in 1936. This is the first time in the history of the Hospital that the number both of patients admitted and of those treated to a conclusion has reached 2,000. The number of admissions would have been even greater but for the fact that the Children's Wards had to be closed for several weeks owing to infectious disease.

The number of out-patients was 5,289, that of attendances was 38,006. This also shows an increase, the corresponding figures in 1936 being respectively 5,254 and 37,713.

These statistics should convince anyone of the urgent need for an extension of the Hospital. The Committee earnestly trust that the public will realize this necessity and contribute generously towards the provision of 50 more beds.

The income for the year amounted to £18,794 16s. 3d. The expenditure was £18,314 12s. 1d., leaving a credit balance of £480 4s. 2d. The income was £2,746 4s. 0d. more, and the expenditure £41 0s. 6d. less, than in 1936. The income also constitutes a record, and the Committee consider this a notable achievement. The result is partly due to the profit on the working of the Sunnyside Nursing Home, which amounted to £226 18s. 11d.

It must not, however, be overlooked that there is an accumulated deficit of £8,087 17s. 3d., and every effort should be made to reduce this.

The total amount received from the Hospital Contributory Scheme was £10,258 11s. 9d., an increase of £266 13s. 1d. over that of 1936. Mr. Joseph Wright, his colleagues on the Saturday Fund Committee, and also the Collectors, both official and voluntary, are to be congratulated upon this satisfactory result of their work.

The names of the same three large firms are still missing from the list of those who belong to the Hospital Contributory Scheme. The Committee trust that before the end of 1938 these three will have come into line by joining the Scheme.

The experiment of appointing two Collectors for Kidderminster has been fully justified by the result of their first complete year's work. The total amount of their collections was £1,111 14s. 6d., an increase of £208 13s. 11d. on that of the year 1936. Of the total amount, approximately £621 was collected from individual contributors.

The contributions from the country districts amounted to £896 9s. 11d., an increase of £101 2s. 7d. over the country collections in 1936. In this connexion the Committee again wish to place on record their gratitude to the voluntary collectors who give such valuable help in the country districts. It is very satisfactory to note that the collections in nearly all the districts were greater than those of 1936.

The Committee wish again to express their grateful thanks to Mr. R. T. Mountford and the members of his Carnival Committee. As the result of their work the Hospital benefited by the substantial amount of £330.

The number of patients admitted as the result of motor accidents was 95, as against 88 in 1936. Seven died from their injuries, four of them within twenty-four hours of admission. Several substantial payments were received during the year for motor accident patients, and it is probable that other payments will be forthcoming later.

Two important additions to the Honorary Medical Staff were made during the year: Mr. J. S. M. Connell, Gynaecologist, began work in April; Dr. John H. Hannan, Pathologist, began work in November.\*

---

\* In January, 1938, Dr. A. Brian Taylor was appointed Honorary Consulting Physician to the Hospital, to begin work in February. For convenience of reference his name is included in the Staff enumerated on pages 6 and 7 of this Report.

The Committee desire to express their gratitude to all those who have contributed to the funds or who, by gifts or personal service, have enabled the Hospital to maintain its high standard of work, to provide efficient treatment, and to give relief to the sufferers for whose benefit it exists. They also gratefully acknowledge the loyal service given by the Staff of the Hospital.

Their thanks are specially due to: the Honorary Medical Staff; the Honorary Chaplain, the Treasurer, the Solicitors, the Architect, and the Auditors; the House-Surgeons, the Matron and her Staff, and the permanent officials of the Hospital. They wish also to express their appreciation of the services rendered by: the ladies who organize and carry out the work of Alexandra Rose Day, the Linen Guild, and Pound Days; the subscribers and donors; the voluntary collectors; the Press; the Saturday Fund Committee, and the Carnival and Entertainments Committee.
